

Virtual Freshwater Conference

Track 1	Setting Priorities & Measuring Progress
Track 2	Science & Restoration
Track 3	Law & Policy
Track 4	Our Stories - Boundaries & Scale

WEBEX DIRECTIONS AND SCHEDULE

The conference consists of 29 sessions offered during ten 1.5 hour time blocks beginning December 18 and lasting through May 4 (one about every two weeks). Below please find instructions for connecting to each of these online sessions - each consists of a presentation component and an audio component and you will need to connect to each separately. To join any of these sessions, click on the link or paste it to your browser, and you will go to the NetHope WebEx Enterprise Site. Once you are there, enter your name and email address and, if prompted, the meeting password ("freshwater"), and then click "Join Now". The directions for the audio portion, including relevant participant codes, are also included below. All participants should give themselves adequate time ahead of the scheduled start time for each session to connect to both the presentation and audio portion. First time users may want even more time to acquaint themselves with this technology. For assistance, go to <https://nethope.webex.com/nethope/mc> and click on "Support". Don't forget, you need to connect to the audio portion separately. Questions should be directed to Diedre Paterno Pai (dpaterno-pai@tnc.org or +303-641-3925). Please refer to the agenda for information about the specific content and speakers for each session and their associated track.
